

**UET WATER
TECHNOLOGIES**
High Recovery. Low OPEX. Real Results.

CONTAINERIZED + MODULAR TREATMENT SYSTEMS

Factory assembled. Project ready. Engineered for the application.

COMPACT, PROTECTED + TRANSPORTABLE
REDUCED FIELD WORK. FASTER PROJECT EXECUTION.

UET Water designs and manufactures containerized and modular treatment systems for industrial, municipal, commercial, remote and decentralized applications. Equipment is engineered, assembled, piped, wired and tested before shipment to simplify installation, protect critical components and improve project schedule control.

CONTAINERIZED SOLUTIONS

RO + HIGH RECOVERY

Brackish water, process water, desalination and reuse

ULTRAFILTRATION

Surface water, tertiary treatment and RO pretreatment

MEDIA FILTRATION

Iron, arsenic, PFAS, carbon and specialty media

WWTP

MBBR, MBR, ASBR and extended aeration processes

ADVANCED REUSE

Biological treatment, UF, RO and disinfection

CUSTOM PACKAGES

EDI, dosing, CIP, pumping and integrated treatment trains

WHY CONTAINERIZED

- Extensive factory assembly and pre-shipment testing
- Reduced onsite construction, piping and electrical work
- Protected equipment and controlled operating environment
- Compact footprint with transportable, modular construction
- Expandable capacity using single or multiple containers
- Permanent, temporary, emergency or remote deployment

CONFIGURED FOR THE SITE

CONTAINER	20 ft, 40 ft, standard or high-cube configurations
ACCESS	Custom doors, removable panels and maintenance clearances
ENVIRONMENT	Ventilation, insulation, lighting and air conditioning
INTEGRATION	Drainage, chemical areas, controls and remote monitoring
DELIVERY	Single package or coordinated multi-container treatment train

FROM PROCESS DESIGN THROUGH STARTUP

Water analysis | Process engineering | Detailed design | Fabrication and integration | Factory testing | Logistics | Commissioning support | Parts and aftermarket service

A COMPLETE TREATMENT PLANT, BUILT FOR DEPLOYMENT.

Complete systems, limited scope packages and confidential private-label support.
